CIA IMAGERY ANALYSIS DIVISION

CIA/PIR 67302

SHIPYARD : BYSTRY SHIPYARD
LOCATION : VLADIVOSTOK, USSR
GEO COORDS: 43-05N 131-56E

KEY TO ANNOTATIONS

1. Possible OSA Class PTFG.
Shadows cast by the possible missile launchers aided in this identification.
See annotation 1, [REDACTED]
2. Three probable OSA Class PTFG under construction on the building way
(LOA of each approx. 120').
Hull shape and missile launchers contributed to this evaluation.
See annotation 2, [REDACTED]
3. Unidentified vessel, or section of vessel, under construction.
Lack of detail precluded measurements and a more definite identification.
See annotation 3, [REDACTED]
4. Unidentified submarine.
See annotation 7, [REDACTED]
5. Two unidentified possible small submarines.
See annotation 8, [REDACTED]
6. Four unidentified vessels.
These vessels appear to be about the same size as the probable OSA Class
PTFG at annotation 2 above, but poor image quality and ice precluded
further interpretation.
7. Three unidentified possible submarines.
See annotation 9, [REDACTED]

NOTES: (1) Poor image quality and ice conditions precluded measurements
on all items except annotation 2.
(2) Annotations 4 through 7 are located at the Ulisa Bay Submarine Base.
(3) All measurements have been made by the CIA/IAD project analyst.
